

03 – 06 September

## PROGRAMME OF THE AGROSTAT 2024 CONFERENCE

Auditorium: Alcínio Miguel, Escola Superior de Tecnologia e Gestão, Instituto Politécnico de Bragança

| Tuesday 3 <sup>rd</sup> September   |          |  |  |  |
|-------------------------------------|----------|--|--|--|
| Time                                | Type     | Event  | Tutor                                    |  |
| 10:00 - 12:30                       | Workshop | WORKSHOP 1: Structural equation modelling from covariance analysis to PLS-SEM      | Jean-Michel Galharret, ONIRIS Nantes     |  |
| 12:30 - 13:30                       | Break    | Lunch at IPB canteen   |  |  |
| 13:30 - 16:00                       | Workshop | WORKSHOP 2 : Creation of an end-to-end machine learning pipeline with {tidymodels} | Antoine Bichat, Les Laboratoires Servier |  |
| 16:00 - 18:30                       | Workshop | WORKSHOP 3 : Bayesian estimation of microbiological dose-response functions        | Jukka Ranta, Finnish Food Authority      |  |
| Wednesday 4 <sup>th</sup> September |          |  |  |  |
| Time                                | Type     | Event  | Speaker                                  |  |
| 08:30 - 09:00                       |          | Registration   |  |  |

|               |                 |   |  |
|---------------|-----------------|---|--|
| 09:00 - 09:15 | Welcome         | Opening of Agrostat 2024  | Vasco Cadavez, Julien Rogues   |
| 09:15 - 10:10 | Keynote lecture | <b>Flexible handling of dependence for signal identification using functional ANOVA</b>   | David Causseur, L'Institut Agro Rennes-Angers                              |
| 10:10 - 10:50 | Session 1       | <b>Experimental designs</b><br><b>Moderator: David Causseur</b>   |  |
|               | 10:10 - 10:30   | Space filling design for training dataset reduction   | Magalie Claeys-Bruno, Aix Marseille University                             |
|               | 10:30 - 10:50   | Predicting the stability of complex dispersed systems using physical and chemical techniques and building mathematical models                 | Magalie Claeys-Bruno, Aix Marseille University                             |
| 10:50 - 11:10 | Break           | Coffee break  |  |
| 11:10 - 11:50 | Session 2       | <b>Food safety modelling</b><br><b>Moderator: Ursula Gonzales-Barron</b>  |  |
|               | 11:10 - 11:30   | Statistical analysis of ecophysiology and mycotoxin production in <i>Fusarium</i> species: Key findings                                       | Remi Mahmoud, Ecologie Fonctionnelle et Écotoxicologie des Agroécosystèmes |
|               | 11:30 - 11:50   | Modelling the inactivation and survival of foodborne pathogens in traditional Moroccan foods: Merguez sausage and Amlou spread                | Youssef Ezzaky, Agadir Superior School of Technology                       |
| 11:50 - 12:30 | Session 3       | <b>Meta-analysis</b><br><b>Moderator: Michelle Sargent</b>  |  |
|               | 11:50 - 12:10   | A systematic review and meta-analysis of Anisakids occurrence in European countries   | Sabrina El Metennani, Instituto Politécnico de Bragança                    |
|               | 12:10 - 12:30   | Capability of autochthonous lactic acid bacteria supernatant from dairy foods to inhibit <i>Salmonella enterica</i> : A meta-regression study | Nathalia Fernandes, Instituto Politécnico de Bragança                      |
| 12:30 - 14:00 | Break           | Lunch at IPB canteen  |  |

|               |                        |   |  |
|---------------|------------------------|---|--|
| 14:00 - 14:50 | <b>Keynote lecture</b> | <b>Descriptive temporal sensory evaluation with consumers: advantages and limitations</b>   | <b>Michel Visalli,<br/>Chemosens Platform<br/>INRAE</b>                      |
| 14:50 - 15:50 | <b>Session 4</b>       | <b>Sensometrics I</b><br><b>Moderator: Michel Visalli</b>   |  |
|               | 14:50 - 15:10          | Categorical functional data analysis applied to temporal dominance of sensations data   | Caroline Peltier,<br>Centre des Sciences du Goût et de l'Alimentation, Dijon |
|               | 15:10 - 15:30          | On the representation and analysis of temporal dominance of sensations data   | Pascal Schlich, Centre des Sciences du Goût et de l'Alimentation             |
|               | 15:30 - 15:50          | Nonlinear PLS-based approaches applied to external preference mapping – A review  | Benjamin Mahieu,<br>Oniris, INRAE  |
| 15:50 - 16:10 | <b>Break</b>           | <b>Coffee break</b>   |  |
| 16:10 - 17:10 | <b>Session 5</b>       | <b>Sensometrics II</b><br><b>Moderator: Pascal Schlich</b>  |  |
|               | 16:10 - 16:30          | Principal component analysis with optimal scaling: a way to integrate sensory analysis, physicochemical measurements and experimental factors | Evelyne Vigneau,<br>Oniris, INRAE  |
|               | 16:30 - 16:50          | Application of unfolding analysis to palatability versus tests  | Julien Rogues,<br>Symrise  |
|               | 16:50 - 17:10          | Investigating sensory-instrumental relationships in a subset of test-control paired comparisons by partial least squares regression           | J. C. Castura,<br>Compusense Inc   |
| 19:00 - 22:00 | <b>Social event</b>    | <b>Welcome eat-and-mingle</b>   |  |

## Thursday 5<sup>th</sup> September

| Time          | Type                   | Event  | Speaker                                      |
|---------------|------------------------|--|--|
| 09:00 - 10:00 | <b>Keynote lecture</b> | <b>The present and the future of food safety risk assessment</b>                   | <b>Moez Sanaa, World Health Organization</b> |
| 10:00 - 11:00 | <b>Session 6</b>       | <b>Predictive Microbiology and Risk Assessment</b><br><b>Moderator: Moez Sanaa</b> |  |

|               |                 |  |   |
|---------------|-----------------|--|---|
|               | 10:00 – 10:20   | The multi-objective data-driven approach: a route to drive performance optimisation in the food industry                       | Manon Perrignon,<br>Science et Technologie du Lait et de l'Oeuf |
|               | 10:20 – 10:40   | Modeling the growth dynamics of <i>Staphylococcus aureus</i> in Moroccan Jben soft cheese under different storage temperatures | Mariem Zanzan, Ibn Zohr University                              |
|               | 10:40 – 11:00   | Bioprotective effect of lactic acid bacteria against <i>Listeria monocytogenes</i> in heat-treated reconstituted milk          | Yara Loforte, Instituto Politécnico de Bragança                 |
| 11:00 – 11:30 | Break           | Coffee break   |   |
| 11:30 – 12:30 | Session 7       | Process control<br><b>Moderator: Mariem Zanzan</b>   |   |
|               | 11:30 – 11:50   | A design of experiments approach to improve the antibacterial effect of protein hydrolysates                                   | Julien Rogues, and Maxime Fuduche, Symrise                      |
|               | 11:50 – 12:10   | Chemical and microbiological comparison of ready-to-eat, dry fermented sausages from Northern Portugal                         | Ana Sofia Faria, Instituto Politécnico de Bragança              |
|               | 12:10 – 12:30   | Optimisation of microbiological, physicochemical and textural quality attributes of goat's milk kefir                          | Mariem Ayed, Polytechnic Institute of Bragança                  |
| 12:30 – 14:00 | Break           | Lunch at IPB canteen   |   |
| 14:00 – 15:00 | Keynote lecture | Bayesian practices in food safety risk assessments: tricks and treats  | Jukka Ranta, Finnish Food Authority                             |
| 15:00 – 16:00 | Session 8       | Artificial Intelligence & Big Data<br><b>Moderator: Jukka Ranta</b>  |   |
|               | 15:00 – 15:20   | Time series prediction for raw material prices   | Pierre Barbe, SPF - Symrise Pet Food                            |
|               | 15:20 – 15:40   | Leveraging large language models for consumer review summary in cosmetic industry  | Emmanuelle Mauger, Chanel                                       |
|               | 15:40 – 16:00   | <i>ArtisaneR</i> : An online generic process risk model for sausage-making   | Ursula Gonzales-Barron, Instituto Politécnico de Bragança       |

|               |               |  |  |
|---------------|---------------|--|--|
| 16:00 - 16:20 | Break         | Coffee break   |  |
| 16:20 - 17:20 | Session 9     | <b>Software and packages – corneR</b><br>Moderator: Julien Rogues  |  |
|               | 16:20 - 16:30 | Development of a Python library that integrates information from the KEGG database to analyse biological pathways            | Laís Carvalho,<br>Instituto Politécnico de Bragança  |
|               | 16:30 - 16:40 | Pathogens-in-Foods database – systematically organized pathogen occurrence data in European farm-to-fork food chains         | Ana Faria, Instituto Politécnico de Bragança         |
|               | 16:40 - 16:50 | Pathogens-in-Foods (PIF) database – developing interactive occurrence data and meta-analysis dashboards with shiny R package | Zineb Bradai, Instituto Politécnico de Bragança      |
|               | 16:50 - 17:00 | A centralised database and e-platform for improved productivity and sustainability of agropastoral systems                   | Muhammad Sadee,<br>Instituto Politécnico de Bragança |
|               | 17:00 - 17:20 | Round of questions from the audience   |  |
| 19:30 - 23:30 | Social event  | Gala dinner  |  |

## Friday 6<sup>th</sup> September

| Time          | Type            | Event  | Speaker                              |
|---------------|-----------------|--|--------------------------------------|
| 09:00 - 10:00 | Keynote lecture | Remote sensing data in the definition of management zones in precision agriculture                             | Maria Teresa Godinho,<br>IPBeja      |
| 10:00 - 10:50 | Session 10      | EU PRIMA online session<br>Moderators: Ana Sofia Faria, Vasco Cadavez  |                                      |
|               | 10:00 - 10:10   | Modelling the growth of Listeria monocytogenes in soft goat's cheese "Jben" under various storage temperatures | Kaoutar Boussif, Ibn Zohr University |
|               | 10:10 - 10:20   | Modelling the inhibition of Listeria monocytogenes growth in fish products with lactic acid bacteria strains   | Ahmed Elidrissi, Ibn Zohr University |
|               | 10:20 - 10:30   | Advancements in biometric techniques for Moroccan argan grove goats –  | Hamza Tami, Ibn Zohr University      |
|               | 10:30 - 10:40   | Evaluation of the safety and quality of the Tunisian agro-pastoral dairy product "Smen"                        | Zeineb Jrad                          |

|               |               |  |  |
|---------------|---------------|--|--|
|               | 10:40 – 10:50 | Round of questions from the audience   |  |
| 10:50 – 11:20 | Break         | Coffee break   |  |
| 11:20 – 12:10 | Session 10    | <b>EU PRIMA online session</b><br><b>Moderators: Ana Sofia Faria, Vasco Cadavez</b>  |  |
|               | 11:20 – 11:30 | Optimization of phenolics extraction from grape marc using response surface methodology  | Ramla Khiari,<br>University of Manouba |
|               | 11:30 – 11:40 | Anti-Listeria effect of citrus peel extract in fermented milk model –  | Wafa Mkadem,<br>University of Manouba  |
|               | 11:40 – 11:50 | Recovery of dietary fibre and polyphenol from red grape marc and assessment of their antibacterial activity and polyphenol composition | Ramla Khiari,<br>University of Manouba |
|               | 11:50 – 12:00 | Mathematical modelling of drying kinetics of date seeds and assessment of phytochemical contents and antibacterial potency             | Amal Dbeibia,<br>University of Manouba |
|               | 12:00 – 12:10 | Round of questions from the audience   |  |
| 12:10 – 12:20 |               | <b>Awards for the young researcher's best oral presentation and senior researcher's best oral presentation</b>                         |  |
| 12:20 – 12:40 |               | <b>Closing ceremony and announcement of next Agrostat</b>  |  |
| 12:40 – 14:00 | Break         | Lunch at IPB canteen   |  |
| 14:30 – 20:30 | Social event  | Douro Valley excursion and return to Porto   |  |
